Dear Jack:

Enclosed you will find the original and one carbon copy of the transcription of the testimony of Louis Taylor Carr. I am sending it to you to take to him rather than send it direct to him. I am only sending one carbon copy which I believe you want because there will probably be use for the others here. If Carr insists on having a copy and if you feel he should have it, give him your copy and I shall send you another.

How did you make out with Dare?

If I get a chance this week-end when I am home, I shall drop down to Dover, Delaware and see Ewell (or Yule). I have already found out where he works.

Yours very truly,

Harold Weisburg
